

Figure 49. Location Map for supporting observation stations in Long Bay, South Carolina (SC). Wind speed and direction, wave height and period, air temperature, sea surface temperature, and barometric pressure observations from October 1, 2003 to May 1, 2004 were obtained from NOAA NDBC stations 41013 and FPSN7 and NOAA NOS stations 8661070 and 8659897. Daily streamflow observations from October 1, 2003 to May 1, 2004 were obtained from the U.S. Geological Survey.
