

## Sea Floor Image Maps Showing Topography, Sun-Illuminated Topography, Backscatter Intensity, Ruggedness, Slope, and the Distribution of Boulder Ridges and Bedrock Outcrops in the Stellwagen Bank National Marine Sanctuary Region off Boston, Massachusetts

Page C. Valentine, editor

This DVD-ROM contains sea floor maps and imagery collected during a multibeam-echo-sounder survey of the Stellwagen Bank National Marine Sanctuary region off Boston, Massachusetts, in 1992-1994. The mapping project is a cooperative effort of the U.S. Geological Survey (USGS) and the National Oceanic and Atmospheric Administration, with support from the University of New Brunswick and the Canadian Hydrographic Service.

This DVD-ROM was produced in accordance with the UDF standards. Contents are intended for use on UNIX, Macintosh, or Windows platforms. However, GIS data are viewable on Windows and UNIX platforms.

To access the information contained on this disc with a WWW client browser, open the file index.htm at the top-level directory of this disc with your selected browser. The disc should be viewable by all WWW browsers but may not properly format on some older WWW browsers.
